1st March 2018

Dear parents and carers,

As you will no doubt have seen, the weather forecast for the next few days shows that the current very cold temperatures will continue and there is likely to be snowfall.

I felt it important to send you a letter clarifying our procedures in the unlikely event that preschool is disrupted by wintry weather.

If we do experience significant snowfall, and it causes us to either close the preschool or make a change from the usual routines, we will always let you know as early as possible via facebook, our website, email and local radio

As you know, our aim is always to open the preschool, however in making decisions like this, I do always have to ask the following:

- Is the preschool site safe for everyone to access?
- Are there enough staff, including qualified first aiders, to ensure safe staff:child ratios?
- Do we have heating and running water at the premises?

Kind regards

Claudine Woodman
Supervisor
